CASE STUDY

Client's Profile: Dato Kun, Age 55, Non-smoker, Death Coverage of US\$20M

Dato Kun is married with children and bought a jumbo insurance policy in his early 40s. When the market plunged, the policy's **cash values** (1) remained steady since there is a **guaranteed** portion and (2) continued to **grow** year-on-year. During the global financial crisis and even with the more recent market volatility, that put downward pressure on asset prices, his life insurance plan continued to remain a **robust asset class** of choice, to compliment his overall investment and wealth management strategy.

The policy provided him the **flexibility** to make withdrawals and policy adjustments when he encountered major changes in his life. This coverage gave him the comfort of knowing his **assets were safe** and his beneficiaries would not run into any predicament in the event of an unexpected demise.

'A Passion to Go Beyond' is a passion to serve both clients and partners, going beyond their expectations now and for years to come.
